

ABSTRACT

A disposable undergarment having a topsheet, a backsheet and an absorbent core disposed therebetween. The core is placed in a crotch region and has ~~having~~ front and rear end zones and a middle zone. ~~Bath side~~ Side portions of a first elastic member extend in the vicinity of front ends of transversely opposite side edge portions of the crotch region while a middle portion of the first elastic member extend across the front end zone. Side ~~of the core~~ ~~Bath side~~ portions of a second elastic member extend in the vicinity of rear ends of the ~~transversely opposite side edge~~ portions while a middle portion of the second elastic member extends across the rear end zone. The ~~of the core~~. ~~By such an arrangement of the first and second elastic members, the~~ contraction of the first and second elastic members in the middle portions thereof is effectively used to maintain the front and rear end zones of a core in close contact with the wearer's skin.
